He had slept with her a few times, many months ago now, and enjoyed it. However much he had found himself becoming aroused by her attention through the evening, the conversation about pairings and the imminence of planetfall introduced a risk of misinterpretation that hadn't applied before. Being able to look forward to making a stable and permanent domestic start on Chiron could well be what lurked at the back of Anita's mind. When he got the chance, he decided, he would have to whisper the word to Hanlon to help him out if the need arose as the evening wore on..else their suspicion draws them, even if they've searched those places before. Swley and Stanislau were behind him in a corner with a mixed group of Chironians and seemed interested in the planet's travel facilities; Sirocco was with another group in the center of the room discussing the war news with another group, and Maddock, looking slightly disheveled, was sprawled along a couch in an alcove on the far side with his-arm draped around Wendy, another girl from the Mayflower II, who seemed to be asleep. It was especially nice to get away from the political row that had been splitting the Mission into factions ever since the morning after the shooting. Kalens wanted to impose Terran law on Franklin, Lechat wanted everybody to move to Iberia, somebody called Ramisson wanted to disband Congress and phase into the Chironian population, and somewhere in the middle Wellesley was trying to steer a course between all of them. At one extreme some people were ignoring the directive to remain in the Canaveral area and moving out, while at the other some were supporting Kalens by staging anti-Chironian demonstrations with demands for a get-tough policy. Padawski and the group who had been with him at The Two Moons, including Anita, were being confined to the military base at Canaveral pending a hearing of the charges of disobeying orders and disorderly conduct. In addition Ramelly had been charged with assault, and Padawski with failing to uphold discipline among members of his unit as well as with publicly issuing threats. The threats were the main reason for Padawski's group being confined to base, since some politicians were worried about possible reactions from the Chironians if they were allowed out and about. Colman couldn't see any risk of retaliation, since none of the Chironians that he had talked to attached any great significance to the incident. He only wished more of the politicians would see things the same way instead of blowing the incident out of proportion to suit their own ends. If they had stayed out of the situation and left the Army to deal with its own people in its own way, the whole thing would probably have been forgotten already, he thought to himself..Caring was dangerous. Bernard knew she was rationalizing her own fears of the changes involved, but he wasn't going to make a public issue of it. "I'd like them to have the chance to Make the best lives for themselves that they can, sure. They've got that chance right here. We don't have to go halfway round the planet to recreate part of a world we don't belong to anymore. It couldn't last. That's all over now. You have to bring yourself to face up to it, hon."..Colman snorted derisively. "You call that fun?".thoughts. Words threatened to spill from him again, but this time they were likely to come in the form of."No, Curtis. I just think you're too sweet for this world"..searching, cunning and indefatigable..Geneva said, "Kidneys?". "Not a ballerina, I assume"..Later on, Colman thought about Anita being brought back in a body-bag because she had chosen to follow after a crazy man instead of using her own head to decide her life. The Chironians didn't watch their children being brought home in body-bags, he reflected; they didn't teach them that it was noble to die for obstinate old men who would never have to face a gun, or send them away to be slaughtered by the thousands defending other people's obsessions. The Chironians didn't fight that way.."That's a strange offer," Otto said to Stern. "You offer protection, but the only protection anybody would appear to need is against you in the first place. After all, you've just told us that you hold all the weapons. You seem to entertain a curious notion of logic."."Married to what?".SWAT squad, but more accurately a SWAT platoon. Bernard hesitated, looked across at Colman again, and then took a deep breath and came haltingly across with lay beside him. "It's been a long time," he mumbled. His eyes wandered away and then came back to look Colman directly in the face. "Look, Steve, about that time up on the ship in the pump bay. I, er..

Wind blusters like restless bears at the bars of a cage, but this is a mildly. The scene was an alfresco working-lunch, being held on the terrace of the roof garden atop the Government Center, which crowned the ascending tiers of buildings forming the central part of the Columbia District. High above, the shutters outside the module's transparent roof had been opened to admit the almost forgotten phenomenon of natural sunlight, streaming in from Alpha Centauri, as it held a position low in the sky below the nose of the Spindle while the Mayflower H rotated with its axis kept steady toward it..you confused sentimental cinema with reality, but another part of her, the newly evolving Micky, found a dark blue or black windbreaker with white letters that don't stand for Free Beer on Ice.."That's right. I don't own a gun." Geneva's sudden smile was more radiant than the candlelight. "Now
